YOURsay
Community panel

Help shape Canberra

Yesterday the ACT Government launched the YourSay Community Panel, an online opportunity for Canberrans to participate in shaping our city.

We are keen for as many Canberrans as possible to join and participate in the Panel to ensure our community's diversity is reflected in the feedback we hear.

Panel members will have surveys and other activities delivered straight to their inbox. This feedback will help inform government decision-making, evaluate services and communication campaigns and help inform the development of our policies, programs and services.

The Panel is open to all ACT residents aged 16 and over to join, including ACT Government employees.

The YourSay Community Panel complements the many other ways the ACT Government listens to the ACT community. You as our key stakeholders, and other members of our

community, can still provide your valuable input via face-to-face opportunities and the YourSay website.

We hope you will promote this opportunity through your networks by sharing the content on ACT Government Facebook and other channels and encourage all Canberrans to participate in this opportunity.

Should you have any questions or would like materials to help spread the word, please feel free to get in touch with the team in Chief Minister, Treasury & Economic Development Directorate via askus@yoursay.act.gov.au.

Yours sincerely

Andrew Barr, MLA
Chief Minister
